

dunbrik flues	Dunbrik Blakbord	Product safety data sheet
<b>Description</b>	Insulation panel of mineral wool attached to damp proof membrane	
<b>Physical and chemical properties</b>	Vitreous silicate mineral wool as slabs, trols or sectional form. Phenolic resin 5.5%, mineral oil 0.9%. Melting point above 600 deg C. Insoluble in water and generally chemical inert.	
<b>Stability and reactivity</b>	Stable under normal conditions. Avoid high temperatures	
<b>Hazards identification</b>	May cause temporary skin irritation by mechanical action, cutting and handling may cause dust. High levels may cause irritation to the eyes and throat. Binding will decompose above 230 C producing carbon dioxide, carbon monoxide and some trace gases, does not constitute a hazard in well ventilated areas.	
<b>Handling &amp; storage</b>	Avoid unnecessary handling of unwrapped product, store in original packaging in a dry area. If cutting, use a sharp hand tool and avoid power tools.	
<b>Accidental release measures</b>	Large pieces may be placed in plastic bags or waste bins. Granules or dust should be collected using vacuum cleaning or by damping down with water spray prior to brushing. Minimise exposing dust.	
<b>Waste disposal</b>	Normal waste - Local regulation	
<b>Fire fighting Protective equipment</b>	Damp proof membrane flammable - Use dry powder A self-contained breathing apparatus and full protective clothing must be worn in fire conditions.	
<b>Exposure controls / personal protection</b>	Eyes - Safety goggles / safety glasses Hands - Wear appropriate gloves Skin - Wear loose fitting, long sleeved clothes, barrier cream or emulsions Respiratory - Wear dusk mask if needed Exposure - MEL: 0 mg/m <sup>3</sup> , OES: 5 mg/m <sup>3</sup>	
<b>Regulatory information</b>	Risk phases - R38 Irritating to skin Safety phases - not applicable	
<b>Emergency and first aid procedure</b>		
<b>Skin contact</b>	Take off all contaminated clothing immediately. Wash skin with soap and water. If irritation arises, seek medical attention.	
<b>Eye contact</b>	Immediately irrigate with eyewash solution or clean water, for several minutes.	
<b>Ingestion</b>	If swallowed, rinse mouth with water and drink plenty of water. Seek medical attention.	
<b>Inhalation</b>	Keep patient calm, remove to fresh air and summon medical attention.
