

This checklist is based on Building Regulations ADJ Appendix A, using *standard* Dunbrik A1 Concrete Flue Liner data. The builder/installer should insert details of the actual fireplace opening sizes, actual ventilation installed and any variations to the usual data.

<b>Checklist for Hearths, fireplaces, flues and chimneys</b>											
<p>This checklist can help you to ensure hearths, fireplace, flues and chimneys are satisfactory. If you have been directly engaged, copies should also be offered to the client and to the Building control body to show what you have done to comply with the requirements of part J. If you are a sub-contractor, a copy should be offered to the main contractor.</p>											
<p>1 Building address, where work has been carried out:</p> <p>_____</p>											
ADJ appendix A	Details to amend or complete										
2 Identification of hearth, fireplace, chimney or flue	<i>Fireplace in Lounge</i>										
3 Firing capability	<table border="1" style="display: inline-table; border-collapse: collapse;"> <tr> <td style="padding: 2px;">All</td> <td style="padding: 2px;">Gas</td> <td style="padding: 2px;">Oil</td> <td style="padding: 2px;">Solid fuel</td> </tr> </table>	All	Gas	Oil	Solid fuel						
All	Gas	Oil	Solid fuel								
4 Intended type of appliance. State type or make. If open fire give finished fireplace opening dimensions.	<p><i>For gas fire or solid fuel</i></p> <p>Width _____ mm by Height _____ mm</p>										
5 Ventilation provisions for the appliance. State type and area of permanently open air vents	_____ sq mm through wall ventilation										
6 Chimney or flue construction											
a) State the type or make and whether new or existing	<i>New masonry chimney with Dunbrik A1 concrete flue liners to BSEN1857</i>										
b) Internal flue size (and equivalent height, where calculated - natural draught gas appliances only)	_____ mm internal round/square										
c) If liners used confirm they are correctly jointed in accordance with manufacturers instructions and state jointing materials used.	<i>Tongue downwards into rebate and jointed with Dunseal fireproof mortar</i>										
d) If an existing chimney has been refurbished with a new liner, type or make of liner fitted	<i>Not applicable</i>										
e) Details of flue outlet terminal Outlet detail: Complies with:	_____ Chimney Pot / Terminal <i>BS1181</i>										
f) Number and angle of bends	_____ bends at _____ degrees										
g) Provision for cleaning and recommended frequency	<i>Annually via fireplace opening</i>										
7 Hearth. Form of construction. New or existing	<i>New as diagram 25 in ADJ</i>										
8 Inspection and testing after completion Tests in Appendix E of ADJ 2010 Flue Inspection results:	Tests carried out by:										
<table style="width: 100%; border: none;"> <tr> <td style="width: 30%; border: none;">Visual</td> <td style="border: none;">_____</td> </tr> <tr> <td style="border: none;">Sweeping</td> <td style="border: none;">_____</td> </tr> <tr> <td style="border: none;">Coring ball</td> <td style="border: none;">_____</td> </tr> <tr> <td style="border: none;">Smoke</td> <td style="border: none;">_____</td> </tr> <tr> <td style="border: none;">Spillage</td> <td style="border: none;">_____</td> </tr> </table>	Visual	_____	Sweeping	_____	Coring ball	_____	Smoke	_____	Spillage	_____	
Visual	_____										
Sweeping	_____										
Coring ball	_____										
Smoke	_____										
Spillage	_____										
Appliance (where included)											

**I/We the undersigned confirm that the above details are correct. In my opinion, these works comply with the relevant requirements in Part J of Schedule 1 to the Building Regulations.**
