dunbrik flues	Dunbrik 13mg Smoke Pellets				Product safety data sheet					
Identification of substance	13mg White Smoke Pellets – with 40second burn time and 18m³ smoke									
Hazards identification	Ignites readily, burns without flaming, giving dense white harmful smoke. Harmful if swallowed. Smoke irritating to eyes.									
Composition	Hazardous in	(s) CAS No.		%(w/w)		Symbol		R Phases		
/information on	Potassium C	Ì	03811-04-9	12.0		O,Xn		R9 R20/22		
ingredients	Smoke						Xn		R22-36	
First aid measures	Inhalation		In severe cases, remove patient from smoke exposure. If recovery is not rapid or complete seek medical attention							
	Skin contact (unburned product)		Take off immediately all contaminated clothing. Wash skin with water, followed by soap and water. If large areas of the skin are effected, or if irritation arises seek medical attention.							
	Eye contact Immediately irrigate with eyewash solution or clean water, he eyelids apart, for at least 15 minutes. Obtain medical attention									
	Ingestion (unburned product)		If swallowed, rinse mouth and drink immediately two or more glasses of water or milk. Seek medical attention and show this Data Sheet, if possible.							
Fire-fighting measures	Ignites readily. Oxidising agent will assist combustion. Keep fire exposed containers cool by spraying with water.									
Extinguishing Media	Use large volumes of water as a spray or fog, avoid use of water jet. Contain run-off water with for example temporary earth barriers.									
Fire-fighting protective equipment	A self-contained breathing apparatus and full protective clothing must be worn in fire conditions.									
Accidental release measures	No naked lights. No smoking. Ensure suitable personal protection during removal of spillages. This means wearing eye protection, chemically resistant gloves, boots and coveralls. Transfer to a container for disposal. Wash the spillage area with water. Due to the potassium chlorate content, washings must be prevented from entering surface water or drains. When spillages or uncontrolled discharges into watercourses occur, the National Rivers Authority must be alerted.									
Handling & storage	Handling Read the instructions before use. Do not breathe smoke. Avoid contact with eyes and skin. Wash hands before meals and after work. When using do not eat, drink or smoke.									
	Storage	Keep away from food, drink and animal feeding stuffs, Keep out of reach of children, Keep in original container, tightly closed in a safe place, Keep away from heat and sources of ignition. Store in a dry place.								
	Storage life	Physically and chemically stable for at least 2 years when stored in the original unopened sales container at ambient temperatures.								
Exposure controls/ personal protection	Hazardous Ingredient(s)	\ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \		STI	STEL					
	Smoke Agent			- ppm		10mg	g/m ³	- pp	m	20 mg/m ³
	When using this product refer to the instructions for details. Should it be necessary to enter a heavily smoke laden area, protective respiratory equipment and eye protection must be used (see HSE Guidance Booklet (HS) G 53: "Respiratory Protective Equipment - a practical guide for users").									

Physical and Chemical	Appearance		Off-white coloured composition preformed into a pellet.

Stability and	Stability		Stable under normal conditions.				
reactivity	Hazardous reactions		Ignites readily.				
	Hazardous decomposition products		Combustion or thermal decomposition may evolve harmful vapours.				
Toxicological	This health hazard assessment is based on information available on similar products.						
information	Inhalation		Smoke irritating to respiratory tract.				
	Skin contact:		Possible risk of skin irritation.				
	Eye contact:		Composition and combustion product may cause eye irritation.				
	Ingestion		Harmful if swallowed.				
Lowest LD50 of chemical con		chemical con	stituents of composition 1260 mg/kg (Oral Rat).				
Ecological information	Toxicity	components	This ecological assessment is calculated from data available on the components of the formulation. Harmful to aquatic organisms. Un-burned composition is non-selectively toxic to plants. Not readily biodegradable.				
Disposal considerations	Applies to unburned product	product acc 1990". Emp	not contaminate ponds, waterways or ditches with chemical. Dispose of duct according to the requirements of the "Environmental Protection Act 90". Empty containers should not be used for other purposes. Disposal should in accordance with local, state or national legislation.				
Transport information	ICAO/IATA Clas - primary :	SS.	Not restricted				
	IMDG Class. - primary :		Non hazardous				
	ADR/RID Class. :		Not subject to the provision of ADR				

Regulat	ory
informa	tion

Users should ensure that they comply with any relevant local, state or national legislation.

EU Classification	HARMFUL				
Hazard Symbol	Xn				
Risk Phrases	R22	Harmful if swallowed.			
	R36	Irritating to the eyes.			
Safety Phrases	S2	Keep out of reach of children			
	S13	Keep away from food, drink and animal feeding stuffs.			
	S16	Keep away from sources of ignition -No smoking.			
	S26	In case of contact with eyes rinse immediately with plenty of water and seek medical advice.			
UK Regulatory	Health and Safety at Work act				

The Control of Substances Hazardous to Health Regulations may apply to this product.

Other information

This data sheet was prepared in accordance with Directive 91/155/EEC.

The information on this sheet is not a specification. It does not guarantee specific properties. The information is intended to provide general guidance to health and safety based upon our knowledge of the handling, storage and use of the product. It is not applicable to unusual or non-standard uses of the product nor where instructions and recommendations are not followed.

This information is based upon our present state of knowledge and is intended to describe our product from the point of view of safety requirements; it is not therefore to be construed as guaranteeing specific properties.
